

# Tbilisi, Georgia

October 2015: Settings 6,300 miles to the east of Atlanta is Tbilisi the capital of Georgia. A city of 1.5 million people that was destroyed and rebuilt 29 times since its founding in the 5th century by King Vakhtang Gorgasal. A statue of Mother Georgia stands on the mountaintop overlooking the city with a cup of wine in one hand to welcome her friends and a sword in the other to vanquish her enemies. I found the wine quite tasty.
